

Accounts receivable financing, often called **factoring**, complements the traditional leases and loans you offer clients and vendors.

Great candidates for our factoring program include companies who are **highly leveraged**, who are **NOT bankable**, and **growing rapidly**, including **start-ups** who need **cash** to grow their business.

We accelerate their cash flow by efficiently converting their stack of billed invoices (due 30 days or more) into immediate cash.

Industry Specialization

Any business that sells goods, products or services to other businesses generates monthly invoices which we can purchase

- Manufacturing
- Printing
- Service Companies (employment agencies, janitorial, maintenance, temporary help, staffing)
- Technology and IT Support
- Transportation and Trucking
- Wholesale/Distribution

Transaction Size

- Financing needs range from \$50,000 to \$15 million per month
- Start-up revenues up to \$30 million per year

What to look for

- Companies and principals who are not bankable (even if they were or are in bankruptcy)
- High growth companies (those without the need to accelerate their cash flow to expedite growth)
- Highly-leveraged balance sheet or negative net worth
- Losses
- Start-ups, emerging companies

Structure

- A/R financing advances up to 90% of invoice amount by the next day
- NO long-term contract and NO prepayment penalties
- Quick approvals - within 24 hours
- 24-hour online account access for clients
- Clients that need help managing their A/R process highly recommend our service
